Subject: Testimony

Hi,

I called you a few months ago. You were kind enough to help me with my father. He had his toe nails removed and MRSA developed in his feet. We got the Bionaid and soaked his feet in it as well as having dad take it orally. His feet are healthy again. Dad is a diabetic which made the MRSA infection even riskier.

I have been taking the Bionaid orally and can finally say I feel great. I forgot how good it feels to breath normally. I have had asthma for about 15 years. Along with the bionaid I have increased my water intake to half of my weight in ounces daily. Most of us do not drink enough and are dehydrated. Thanks so much for a great product.

I believe I shared in my phone call with you about my mom and her passing last year from staph infection. My best friend has been battling staph since January. First, on her spine, then in her bloodstream and now back on her spine. All the antibiotics have not helped. She had been hospitalized for over 4 months. She has finally agreed to take the Bionaid. I feel as if I am getting a do-over with my mom..... Thanks again!!

Blessings,
Linda Breen
