Subject: Hi Elder! Some cool things using Bionaid and my mom!

Hi Elder,

My mom is on her second bottle of Bionaid. She takes 1 tsp each day, but did take 1 tsp 2x/daily for a while. She is 90 years old. She was having troubles with her bladder and was experiencing pain. Each day I'd ask mom how "things" were and she'd tell me how badly it hurt and how it really messed up her day and her energy and made it difficult for her to get around. She didn't feel like doing anything. The doctors ignored her problem when she spoke with them about it.

About a week ago, I called her (I call her several times a day and chat, as she has been widowed since 2001 and she lives about 150 miles from me and her home is at our family farm - 2 miles away from the highway or neighbors and she doesn't drive.) -- I asked her about her pain as I usually do and she said it didn't bother her that day (that was last Tuesday, June 30th). I was excited and thought that was pretty neat. The next evening when I spoke with her again, I asked her about her problem - again her answer was "it hasn't bothered me." I said, "Wow mom! That's great two days in a row - that hasn't happened since the problem began the week of Easter." I said, "Do you think it's the Bionaid?" She replied, "It's the only thing I've added to my diet."

I was so happy for her. Elder, it's been 6 days now and she still says, "It is like I never had the problem." I am so thankful for Bionaid. My mother means the world to me and to know she is in pain-free makes me ecstatic! My mother continues with Bionaid. Upon our most recent visit to my mother's, my husband and I noticed that my mother's complexion has gone from that "elderly white" to nice color in her cheeks; her eyes have become large and they sparkle! (Unlike the eyes of most people that look tired and faraway, dull and small.)

I want to thank you. Your product has help those I love and care for. My husband and I use Bionaid every day and love the results. I will share the results in another email some time.

May God bless you always! Elder - live long and prosper!

Sincerely,
Mary (Kay) Ferguson
