

## **URGENT - ISSUE OF NATIONAL SECURITY**

To Our Fellow Americans in the United States Military, Law Enforcement, and Those Who Serve as First Responders:

Below, please find several websites where you can find credible documentation of what we are saying here as well as evidence that vaccines ALWAYS serve as disease igniters. Vaccines never inhibit or prevent disease, precisely the opposite.

This is a critical point that must be understood and dates back to the very first vaccine against smallpox. The mandatory vaccination program ignited a small pox pandemic killing hundreds of thousands in lands that previously had no smallpox pandemic.

[http://www.legitgov.org/pandemic\\_action.html](http://www.legitgov.org/pandemic_action.html)

<http://www.bionaid.com/aaps.pdf>  
<http://www.bionaid.com/novaccines.pdf>

Especially since members of the military, law enforcement and first responders are part of the population most at risk for such mandated vaccination programs, as well as being those most likely to have to enforce them, it is critical that you be alert to the activities of Homeland Security and FEMA which are federal agencies answerable to the WHO and the UN in the United States, under the International Partnership on Avian and Pandemic Influenza signed by President George W. Bush in November 2005.

We are concerned about the intersection of these combined military exercises with what we feel may be a spurious declaration by the UN's World Health Organization (WHO) of a Level VI pandemic of H1N1 influenza. We have reason to believe this could lead to mandated genocide via lethal mass vaccination of the American People and other Peoples of the world.

We ask you to stand by the Declaration of Independence, Constitution of the united States of America, the American People, the rule of law, and, if necessary, to actively intervene if there are signs that FEMA and Homeland Security units,

following orders from the UN/WHO, et al, are misusing these combined military exercises to begin mass vaccinations and detentions.

We are counting on you to stand up for what is right for your country, the US Declaration of Independence, Constitution of the United States of America and The People. Please review the following article from the American Journal of Public Health regarding Supreme Court precedence on the matter of forced vaccination:

<http://www.pubmedcentral.nih.gov/articlerender.fcgi?artid=1449224>

Note that two specific elements must be present for the allowance of personal liberties to be set aside for the safety of the general public regarding vaccinations:

1- There must be a substantiated emergency need for the vaccines, and they must be approved, cleared and properly labeled in accord with health regulations. (There is no evidence of a pandemic, and the vaccines are not approved, cleared and properly labeled in accord with health regulations.)

2- There must be no other viable alternatives to deal with a pandemic. (Silver Hydrosols have been proven to support the immune system as a natural immunization and advances in this technology has been advanced with new category of Silver Hydrosols called Uniform Picoscalar Oligodynamic Silver Hydrosol - UPCOSH. See: A Promising Cure for URTI Pandemics, Including H5N1 and SARS: Has the Final Solution to the Coming Plagues Been Discovered? (Part II) at:

[http://www.gordonresearch.com/Presentations/GRI\\_mar07/articles/promising\\_cure.html](http://www.gordonresearch.com/Presentations/GRI_mar07/articles/promising_cure.html)

To allow for the any agency, foreign or domestic, to force vaccinations upon the public when there are viable alternatives is not serving the best interests of national security, public interest, health education, social welfare, civilization's safety and world peace.

Under the law of necessity, The People have the authority to act to preserve their lives even if it is contrary to government policy, especially policies that are obviously not in the best interests of national security, public interest, health education, social welfare, civilization's safety and world peace.

Thank you for your work in service to your country, and for your consideration.

Your Fellow American,

---
